

Your techs are on the lift. Your phone goes to voicemail. That caller booked somewhere else 10 minutes later.

I build automated systems that respond to every inquiry in under 60 seconds, send appointment reminders that cut no-shows, follow up on declined services, and collect reviews the moment the car is picked up — while your team focuses on the work.

WHERE YOU'RE LOSING TIME & REVENUE

Missed calls while techs are on the lift

Declined services go untracked and unfollowed

No-shows and last-minute cancellations

TOP AUTOMATIONS FOR AUTO REPAIR SHOPS

Missed Call Text-Back

Saves 3-5 leads/week

Declined Service Follow-Up

Recovers 15-25% of declined jobs

Appointment Confirmation & Reminder

Cuts no-shows by 40-60%

Post-Service Review Request

Compounding reputation growth

Invoice & Payment Follow-Up

Saves 2-3 hrs/week

The average auto repair shop loses \$8,000-\$15,000/year in declined services that were never followed up on. One automated reminder sequence changes that math completely.
