

## Speed-to-lead wins deals. 78% of buyers go with the first agent who responds. How fast are you?

I build automated lead response, follow-up, and booking systems that ensure every inquiry gets an intelligent reply in under 60 seconds — and keeps following up until they're ready to move.

### WHERE DEALS ARE SLIPPING THROUGH

Leads go cold in under 5 minutes if you don't respond

Follow-up sequences fall apart after deal #2 is in progress

Showing coordination eats hours of admin time every week

### THE HIDDEN COST

The average real estate agent loses 4–6 qualified leads per month simply by being too slow to respond. At a \$10,000 average commission, that's \$40–60K/year walking out the door.

### HOW IT WORKS

- 1 Free 30-Minute Assessment — written roadmap within 24 hours**  
I map your lead flow, identify where deals are going cold, and deliver a written plan with specific automations and time savings. No pitch, no obligation.
- 2 Build — your tools, your accounts, your ownership**  
Everything built inside your existing CRM, email, and calendar tools using AI and automation. You own every workflow from day one. No vendor lock-in.
- 3 Optimize — continuous improvement as your pipeline grows**  
Monthly strategy sessions, performance reviews, and new automations added as your business evolves. Fixed pricing, no hourly rates, no long-term contracts.

#### NO LOCK-IN · MONTH-TO-MONTH

Built inside your own accounts. No proprietary software. If we stop working together, you keep every automation. No long-term contracts — stay because it's working.

### WHY ELEVATION INTELLIGENCE

- I don't advise — I build**  
No strategy decks. Every engagement ends with working automations running inside your CRM and tools.
- Single point of contact**  
Every project runs through me personally. No handoffs, no junior contractors. The person who assesses your business builds and maintains everything.
- Fixed project pricing**  
No hourly rates, no surprise invoices. Scope and cost agreed before work begins. Month-to-month retainers for ongoing optimization.
- 20+ years in enterprise software**  
I understand systems, integrations, and business workflows — not just AI tools. That's what separates automations that work from ones that fail in the field.
